As all of us are aware, this is a presidential election year amidst a pandemic. This unusual situation does not have to make it more complicated or harder to have your vote counted. We have included information so you can overcome any barriers to voting. If this information doesn’t help, call us at 608-787-1111, or send us an email at advocacy@ilresources.org and we will do all we can to assist. Please don’t wait, think ahead to make sure your vote counts. Use your voice and vote!

Take care & be safe.
Kathie Knoble-Iverson

ILR is looking for board members who want to be part of our agency that promotes: consumer control, inclusion, diversity, and equality in all aspects of society. ILR has switched to virtual meetings so no travel is necessary. Applications can be completed online or in paper format. Interviews with recruitment committee are virtual. Board orientation is virtual. Meetings are 6-7 times per year on the last Monday of every other month

Please call Kathie or Sara at 608-787-1111 to learn more about becoming a member of our Board of Directors.
Title: Your Vote is Your Voice!

Subtitle: Voting in Wisconsin

Know your voter rights. You have the right to vote privately and independently. You have the right to access the polling place, including and accessible route to enter the building. You have the Right to use an accessible voting machine. All polling places are required by law to have an accessible voting machine. You have the right to assistance marking your ballot. You may bring someone with you or ask a poll worker for assistance. Note: You cannot receive assistance from your employer or from your union representative. You have the right to ask for reasonable accommodations at the polling place.

Some common reasonable accommodations people ask for might be: a chair to sit on, a signature guide, a magnifying glass, assistance with stating a person’s name or address.

If you are unable to enter your voting location due to disability, you may request curbside voting.

Subtitle: Registering to vote

All Wisconsin voters have a right to cast a ballot privately and independently at their polling place on Election Day. The Wisconsin Elections Commission (WEC) is committed to ensuring that all polling places in Wisconsin are accessible to all voters. The Help America Vote Act (HAVA) requires that every polling place in the State of Wisconsin meet Americans with Disabilities Act (ADA) accessibility standards.

The WEC conducts audits of polling places around the state for each election and uses the results of those audits to work with municipalities to address identified problems and improve accessibility. WEC analyzes and uses information gathered during polling place audits to improve and update clerk and poll worker training materials and voter outreach information. This data is also used to inform the Wisconsin State Legislature about the barriers that citizens with disabilities face when voting.

If you need help marking your ballot on Election Day, you may take anyone you choose with you into the voting booth, except your employer or your labor union representative. After you have marked your ballot, the person helping you must then sign the ballot in the space provided. Also, the election workers will write the name of your assistor on the voting list. Your assistor does not need to be qualified to vote.

You can also request help with the accessible voting equipment. Anyone who helps you with a direct-recording electronic accessible voting machine (Edge, iVotronic, Populex or Accuvote) should position themselves behind the machine so that they cannot see how you vote. They are allowed to explain how the equipment works but cannot assist you with making your ballot choices.

You can also have an assistant when completing a voter registration application or absentee application. After completing the application, the assistor must then sign the form in the appropriate box and provide any additional required information. Explaining how to complete the form is not “assistance”. Since 2011, voters in Wisconsin are required to sign the poll list before receiving a ballot. You are exempt from this requirement if you cannot sign the poll list because of physical disability. The election inspectors will write “exempt by order of inspectors” in the signature line and issue you a ballot.

To find the location of your polling place, view a sample ballot, check the status of your voter registration or find contact information for your municipal clerk go to myvote.wi.gov.

Title: Independent Living Resources, Inc. Core Services:

Information & Referral: ILR provides information about disability-related resources and services to people with disabilities, families, professionals and the general public. Staff are available to listen and assist with locating resources and developing strategies for individuals to resolve barriers such as: housing issues, transportation, employment, accessibility, discrimination and legal rights, adaptive equipment, and community supports and services. The Information & Referral process is the gateway into other services at ILR.

Independent Living Skills Training: Independent Living Staff provides one-on-one skills training to overcome individualized disability-related barriers. Acquired skills include any life skill needed to become or remain independent. Skills training can be provided in the community, at home, and/or in the best possible setting for meeting the goals of the individual with a disability.

Individual & Systems Advocacy: ILR works with individuals with disabilities to provide support and guidance related to individual and systems advocacy. Self advocacy is about having the personal confidence to dictate individualized needs and wants. Systems Advocacy is looking at impacts that can be made at a local, state or national level. Independent Living Specialists can teach self-advocacy skills and help individuals develop strong advocacy skills so that they are able to make individual or system-wide impacts.

Peer Support: Peer Support is working with someone who has already been through a similar path as you and is willing to help guide you through the resources and support needed to accomplish your goals. Peer support is really the philosophy of “someone who has ‘been there, done that - let me offer guidance and support.” ILR offers peer support in a number of different ways: through day-to-day interactions with staff who have disabilities themselves, or through a Certified Peer Support Specialist.

Transition Services: ILR will facilitate the transitions of individuals with disabilities from nursing homes to home or community based living, provide assistance to those at risk of entering institutions so they may remain in the community, or facilitate the transition from school to post-secondary life, including work.

Additional Services: ILR also provides Benefits Counseling and Employment Services (SSI and SSDI), Assistive Technology assessments and training, Public Education, Mental Health First Aid, Soft Skills Training, Housing/Homelessness assistance, Home Modification assessments, and Senior Home Safety assessments.
TEPP helps people with disabilities buy equipment they need in order to use basic telephone services. TEPP is paid for by the Wisconsin Universal Service Fund (USF) established by the Public Service Commission. Money is collected from Wisconsin telephone service providers to fund the USF. There is no age or income limit, but an individual can only get a TEPP voucher once every three years for the same type of disability.

Subtitle: TEPP requires that an applicant:

· Be a Wisconsin resident.
· Be a person who is deaf, hard of hearing, speech impaired, or mobility or motion impaired.
· Needs special equipment to use the telephone in the home or when traveling.

Subtitle: How much do I have to pay?

You pay the first $100 (except for Hard of Hearing vouchers). The voucher pays the rest, up to the maximum voucher amount. If you buy equipment that costs more than the voucher plus your $100, you also pay the extra charges.

Subtitle: What if I can’t afford the $100?

The Telecommunication Assistance Program (TAP) may be able to pay the $100. TAP is a program of the Office for the Deaf and Hard of Hearing. TAP is only for persons who are deaf or severely hard of hearing in a low income household. TAP funds pay the $100 TEPP co-payment, if you qualify.
Assistive Technology (AT) is any product or device that enables people with disabilities to improve their independence and quality of life in the community, at home, at work or at school. Assistive Technology can include, but is not limited to: I-Pads, ergonomic writing utensils, amplified cellphones, computer equipment such as keyboards, monitors, software, screen readers and ergonomic office equipment and furniture. There is truly a piece of AT to fit any of your needs!

ILR also has a Device Loan & Demonstration Program with over 400 Assistive Technology devices that can be loaned out and/or demonstrated by an Independent Living Specialist. If you are interested in receiving more information on this program, or would like to have a demonstration, please contact ILR at 608-787-1111.

For a full list of ILR’s inventory of Assistive Technology please visit: www.wisconsinat4all.com

Title: Wisconsin Telework and WisLoan Programs

Subtitle: Telework

The Wisconsin Telework Program is a statewide alternative loan program that allows residents with disabilities to purchase computers and other equipment needed to work from home or from other remote sites away from the office, such as work on the road or at a telework center. Telework Loan funds can be used to purchase office equipment such as furniture, computers, printers, software, telecommunication devices and other office machines. Home modifications can also be paid for through the loan to create an accessible home office.

Subtitle: Wisloan

The Wisconsin Wisloan Program is a statewide alternative loan program that allows residents with disabilities to purchase assistive technology and/or make home modifications that help a person with a disability live more independently and productively. Examples of Assistive Technology that would be approved through the program would be wheelchairs and motorized scooters, hearing aids, visual aids and magnifiers, computers with modifications, controls or switches and vehicle modifications.
